Subject: RE: Pend Oreille

Thanks Jim

I know that BPA provided a significant amount of money for mitigation to the Tribe a couple years ago. Perhaps this is the part of the work that was funded.

Subject: Pend Oreille

Dave/Helen: thanks for our meeting this morning. Attached is a copy of the ACOE News Release from April 2013 which describes a water temperature study which the Kalispel Tribe and the ACOE are conducting at Albeni Falls Dam. I wasn't sure if EPA was aware of this study or results and any implications for the Pend Oreille River Temperature TMDL. Apparently, there is also an MOU between the Kalispel Tribe, the ACOE, BuRec and BPA which is referenced at the bottom of this news release.

Nov. 12, 2013 email to R10:

DRAFT-DELIBERATIVE* ATTORNEY-CLIENT PRIVILEGE

As follow-up to our discussion on November 6, attached please find the "messaging for meeting with Washington Department of Ecology" revised to reflect discussion we had on that day. We understand these would be EPA messaging points or talking points, but not for distribution to Ecology.

Below is more context for the messaging paper attached:

- Item IV A ends with an optional sentence to add some detail if we wish. We reflect that

Ex. 5 - Deliberative

- Ex. 5 - Deliberative**
- For item V: Interested in the Region's thoughts on when and how best to broach these topics with the state.

- Ex. 5 - Deliberative**
